

KG-321

H-UV/UV Blanket

K-Supply

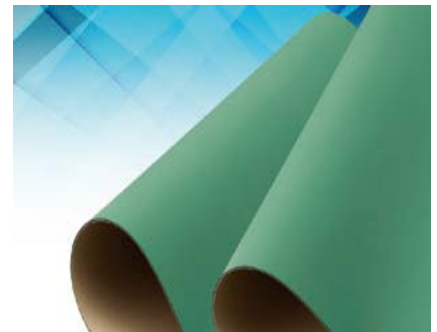

The K-Supply KG-321 H-UV/UV blanket offers improved paper release performance compared to conventional blankets as well as improved picking and ink distribution for solids printed on uncoated paper. The standard Komori blanket, with improved dot reproduction performance due to relaxed attack characteristic even on special substrates.

Features

- Surface material developed for compatibility with H-UV/UV ink.
- Improved surface rubber resilience and use of compression layer with superior smash recovery (Improved paper traces/fatigue resistance)
- Surface shape adjusted for balanced paper release and dot reproduction characteristics

Directions for Use:

For details, please refer to the safety data sheet.
